

GREENWOOD
LOCH

Activities

All activities in our park are created with the greatest benefit for our children in mind. We want our youngest guests to enjoy great fun during which they gain all kinds of skills. We create outdoor activity programs that, in stress-free conditions, allow children to find new passions, gain new skills that can turn into a new adventure in their lives. The characteristics of the activity are so different that the range of acquired new skills can have a very positive impact on the development of each child. Our experienced instructors introduce children to the world of fun and learning while maintaining a high standard and a safe environment. The safety of our guests is one of the most important points of our program to ensure the participants will have a great comfort and fully enable the feeling of pleasure in discovering new abilities in a positive and stress-free atmosphere.

We strive to provide children with a wide range of outdoor activities to support the current global problem of addiction to technology. We make every effort so that children do not feel the need to reach for devices available on a daily basis. We want children to leave the virtual world to feel the surrounding natural environment and we are full of hope that it will allow them to awaken positive stimuli and emotions in children.

We are aware of the importance of childhood development for every human being, therefore our goal is to support this most important time for our visiting young guests and help them get to know their talents and, perhaps, set a new path in their lives.

<i>Activities</i>	Benefits
<u>Argo off-road experience</u>	- exploring the terrain, safety assessment, ability to deal with different emotions.

Activity Description

Activity	Description
<u>Argo off- road</u>	Full of excitement amphibious ride on a track with full of surprises. Breaking through the water slopes and ascents specially designated places for sharper turns can bring a thrill to everyone.
<u>Buggy off-road</u>	<i>Driving one of our buggies, which are a small imitation of real cars on a specially designed and secured track for drivers more and less advanced. After acquiring the experience, we provide a 2nd level of advancement track with little surprises on the route.</i>
<u>Target shooting</u>	<i>Shooting at targets located at different distances from our professional paintball rifles on one of two ranges providing comfort and safety to participants of activity.</i>
<u>Kayaks</u>	<i>Kayaking on the activity pond with a controlled water level to ensure comfort and safety even for those who cannot swim.</i>
<u>Sup boards</u>	<i>Paddle board swimming on a pond with a controlled water level, which gives participants a sense of security, even those who cannot swim. Being active gives a lot of fun and improving your body balancing skills.</i>
<u>Archery</u>	<i>Learning how to use professional archery equipment and aiming arrows at the targets set at a safe distance. For the younger ones, we have movable target that we place at the appropriate distance to give possibilities to gain new skill with enjoyment.</i>
<u>Survival rescue game</u>	<i>Learning to understand first aid and field orientation while searching for and saving our giant teddy bear. A great activity to help develop fast decision making, accountability and problem solving</i>
<u>Pedalos</u>	<i>Pedalos is great for younger kids to gain strength on their upper body and swim on the activity pond with a controlled water level to ensure comfort and safety even for those who cannot swim.</i>

Activity Description

Activity	Description
<u>Mini Quads</u>	<i>Driving one of our Mini Quads, which are designed for younger kids with slow speed to learn new skill in safe environment on a specially designed and secured track for drivers more and less advanced with a great chicane to practice new skill.</i>
<u>Bushcraft</u>	<i>Great fun and learning to survive in the forest with lighting a fire and roasting marshmallows on the campfire</i>
<u>Outdoor art & craft</u>	<i>Various activities supporting the development of creativity using items found in the forest or provided by our instructors</i>
<u>Sport sessions</u>	<i>Various physical activities help to promote a healthy lifestyle and strengthen the muscles of the body, improve the condition and motor coordination.</i>
<u>Magnetic treasure hunt</u>	<i>activities introducing to fishing, while instead of fish, we catch treasures from our activity pond using a magnet on a string that allows you to immerse the magnet at the bottom of the water and find the treasures.</i>
<u>Archaeological adventure</u>	<i>Treasure hunting with metal detectors in a designated area where the treasures of our park are hidden.</i>
<u>Zip Line</u>	<i>Enjoying the views above our activity pond for over 160m on the longest Zip Line in North East Scotland.</i>
<u>Bug hunt</u>	<i>Great activity in the perception of the nature that surrounds us, as well as learning and various tiny creatures that inhabit our park.</i>
<u>Pond dipping</u>	<i>Amazing activity that helps to understand and learn about the underwater environment on one of our ponds where you can find our underwater friends.</i>

SAFE ENVIRONMENT

Our team is making effort every year to revise safety aspects on each of the park area. We have barrier control and CCTV in place at the same time we apply all the procedures below on regular basis.

If you required any evidence/documentation to cover your school trip please let us know and we will be forwarded to you.

Maintenance, Policies and trainings

► Maintenance

Every single activity area get inspected on regular basis and maintenance checklist is done before every season. Reports and record of any maintenance is kept in place that is accessible for every member of staff to comment it or report any issue with any equipment at any time.

► Policies

Every member of staff before working with any Greenwood Loch guests must read, understand and follow all Greenwood Loch Policies

- GDPR policy
- Safeguarding Children Policy
- Safe Driving policy
- CCTV policy

► Trainings

All member of staff before their first day must read and understand all Greenwood Loch

- Policies
- Risk assessments for every activity
- Have their first aid training awareness completed
- Have their fire safety awareness training completed.
- Have their customer service training completed
- Have their internal activity training completed
- Did shadow session before working with any participants independently.

Every member of staff must sign a training logbook after every training accomplishment.
